

## Systemwide Evaluations

The 16 vendors listed below have been pre-selected to perform evaluations for the NYC Department of Education. If you have an existing grant commitment with a vendor listed below, you may continue to use that vendor. However, if you have a new evaluation project, you may want to use the information below to select a vendor.

This list is meant to provide you with information on the vendors' rate and expertise. All of the evaluators have a proven track record in conducting research and evaluations in large urban districts. As the list indicates, all are highly qualified but some firms have specific expertise that may suit your evaluation goals more directly. In addition, the size of your grant, the scope of the work required, and the timeframe may suggest that it would be more cost-efficient to use one vendor instead of another. Please use the information on this list to assist you in making those types of determinations.
