Company Overview

DAH Consulting, Inc. (DAH) is a multi-service management and IT consulting firm specializing in business, financial, economic and operational analysis.

DAH provides services to clients both nationally and internationally.

The DAH Philosophy

DAH is committed to providing quality professional services to our clients. This is achieved through strong leadership that provides the strategic vision, and through ongoing communications with clients to ensure satisfaction.

Our customer-focused philosophy states:

Quality service results from our work-team orientation using experienced professionals.

Planning and communication are key in the creation of customer satisfaction and lasting client relations.

Timeliness of reporting is critical in helping customers add value to their operations.

The development of human resources is essential to achieving quality goals.
